

NEW PRODUCTS

Starting June 10, **Transitions® Signature™ VII Graphite Green** lenses will be available from **Essilor**. These everyday lenses combine all the benefits of the latest generation of Transitions lenses, which react better to indirect light and become darker than ever in higher temperatures with a grey-green tint that provides truer perception of colours and a fashionable look. The Graphite Green tint is now available in the range of Transitions Signature VII lenses which were recently launched in grey and brown. Actrice **Laurence Leboeuf** will be the face of the Essilor's Canadian campaign for Transitions® Signature™ Graphite Green lenses. www.iconicgreen.ca

Morel has launched a number of new styles, distributed by **Lanctôt**. The **Koali** Yucca frame is inspired by the plant with the same name. Available in acetate or metal, three overlapping strands of stainless steel mimic the leaves of the Yucca plant. In the **Lightec** collection, models Alpha 29, 30, 31, and 32 are all fitted with the springless and screwless stainless steel Alpha flex hinge. These products combine stainless steel for the front and TR90 for the temples. Finally, Morel has introduced the new **Öga** Trad flex system, which includes a spring hinge consisting of a 1.4 mm stainless steel wire folded into a clip to connect the front with the temple. www.rlanctot.com

Marchon has introduced many new models to its **Nautica** brand: four sunglass styles for men (N5101S, N5102S, N6176S, and N6179S), three optical frames for men (N7237, N8095, and N8099) and two sunglass styles for women (N5104S and N6181S), in aviator and vintage shapes. With three models for men (JS722S, JS724S, and JS723) and three for women (JS725S, JS723S, and JS2722), all in acetate, the **Jill Sander** brand has also expanded. www.marchon.com

The new **Kaos** KKV333 model is available in four colours, including yellow and bright lime green. Dedicated to the under-30 spirit, it features broken temple lines, which join up like pieces of a puzzle. Kaos is distributed in Canada by **Centennial Optical**. www.centennialoptical.com

Nikon Optical Canada offers a wider progression choice on the **Balance Digital FP**: base curve options of 4 or 7 on all indices and power ranges up to -14.00 and -16.00D for indices 1.67 and 1.74, respectively. www.nikonlenswear.ca

Modern Optical has launched six new models for kids in its **Modz Kids** collection. In addition to the Joyful, Playful, Topple, and Gotcha models, they have the unisex Costume model, in flex titanium, and the Cartwheel frame for girls, with its dual coloration and dainty petals etched on the temples. www.modernoptical.com

ZyloWARE Eyewear Canada ULC has added three new models to its **Red Lotus by ZyloWARE** collection. The AF 208Z and AF 209Z are full-rim zyl frames, whereas the AF 210M is an ultra-light frame with a rectangular metal front and temples embellished with stones. All the frames feature the spring hinge. www.zyloWARE.com

Area98 has added the Black Blade model to its **Coco Song** collection, inspired by dynasties that for centuries governed the Far East. The frames are decorated with silks, dried flowers, and metal designs. www.area98.it

The new **Shiny Mineral** collection by **OKIA** is crafted with its patented HDA® technology. The frames take their inspiration from white sand beaches, and the temples feature wavy patterns, in shades of gold or pink. www.okia.com

Austrian-based eyewear company **Andy Wolf** recently introduced **White Heat**, its first metal collection. The name refers to the colour of metal when it is heated to its highest temperature. The new collection includes four optical frames and one sunglass frame. The acetate nose bridge is a very distinctive sign of this new line. www.andy-wolf.at

theo has launched a limited edition in honour of the Millennium generation. The **Mille** series is retro-inspired. The seven new acetate styles differ in their vibrant fluorescent colours. Designer Serge Bracké has come up with three new styles to add to the four existing Mille models (now available in fluorescents). www.theo.be

Eyewear manufacturer **Kollektion** and fashion label **Odeeh** have joined forces for the **New Round** sunglass collection. The front of the frame combines the retro style with the modern look in a round, yet angular, shape. The Odeeh logo is subtly printed on the temple. www.lunettes-kollektion.com

NEXT ISSUE: JUNE 13, 2014
