nouvelle collection de lunettes LACE par OKIA 2012

BE EXTREMELY HOT AND FASHIONABLE WITH THE NEW LACE COLLECTION BY OKIA!

Do you know which is the hottest trend of this summer? Come and discover a glamorous world of laces with the new **Lace Collection** by OKIA!

Traditional hallmark of items like wedding dresses or veils, lace has recently become one of the most popular fashion trends: that is why OKIA has decided to put its refined pattern on eyewear. The result is a really surprising blend of high technology and fashion that will seduce the feminine public through its unique elegance.

The intricate lace texture skilfully decorates the frame temples creating a special accessory for a refined look with a "vintage" touch, available in the dark and romantic tones of black and blue. The sophisticated charm of this stylish model derives from the application of the internationally renowned **HDA® Technology**. Thanks to the incredible opportunities opened by this patented technology, OKIA is able to translate every single inspirational image and idea into extremely detailed and lifelike eyewear decorations, giving expression to any kind of colour and pattern with an extreme definition and depth effect.

In order to meet the needs of the most sophisticated and demanding women and to be always up to date with the current fashion trends, OKIA has developed an original style that is an authentic masterpiece of design and innovation. The new Lace Collection, indeed, features this season's must have through a clever mix between a classical symbol of elegance and modern technology. A perfect balance between quality and fashion, it expresses a trend that never dies as it epitomizes the spirit of femininity.
