nouveau modèle Okia

CREATE YOUR OWN PATCHWORK WITH OKIA!

If you are tired of wearing ordinary and conventional glasses and what you search for is a special and customized accessory, the new **Patchwork collection** by OKIA is the perfect answer to your needs.

Inspired to patchwork design and philosophy, this collection considers the classic idea of **pattern mixtures** as a starting point while giving it a fresh, modern and funny twist. Cultural references deriving from different imaginative worlds are mixed together on acetate, thus creating an odd mismatched pattern according to customers taste. Thanks to the sensational opportunities offered by the **HDA™ Technology**, it will be easy to satisfy your individual desires combining **animal print decorations** with **geometric or other irregular patterns**. For the first time, the world of nature meets the world of design and geometry making each style of this new collection unique just like an artwork.

The application of **clashing colours** will make your patchwork even more singular: any creative, tonal or contrasting pattern combination can be worked indeed with deep bright colours and subtle mid-tones that will give you a stylish and refined look.

The Patchwork collection and its mixed-up patterns are available for both men and women, allowing them to match their glasses with the latest fashion trends as well as their favourite style. What are you waiting for? Now that you know it, make your wish an create your own patchwork with OKIA!
