CAPRISS®: OKIA PRESENTS THE NEW EYEWEAR COLLECTION

Okia invites you to discover the new original and glamorous frames designed to comfort every woman

JUNE 2009 – CAPRISS®, the high quality eyewear brand is now presenting the new glamorous models, ready to catch the attention of all their estimators at first sight.

The new exclusive frames are made specially by their High Definition Acetate and they are extremely easy to wear, thanks to their original and sophisticated style. The excellent quality of the materials used and the meticulous care of the most precious details are created to suit every woman.

The style of the brand is even more recognizable by unique and refined details such as the simple and subtle metal part decorations with the engraved and embossed C logo. Elegance and preciousness are evoked by the classical high definition patterns.

CP0922, CP09031, CP09032

An unpretentious but sophisticated texture for the realization of these original frames, created to satisfy the most demanding women in terms of charm and quality. These models are designed with High Definition Acetate and embellished by metal details.
